OBJECTIVE

Freelance Software Engineer and AI Architect specializing in full-stack TypeScript/React development, scalable AI-integrated workflows, and serverless cloud architectures. Proven track record shipping production-grade applications across GCP, Vercel, and Netlify, with hands-on experience in Docker, CI/CD pipelines, SSO implementation, and Unix-based development environments. Comfortable operating independently and collaboratively within global, English-speaking engineering teams - ready to contribute day one in a cross-cultural, fast-paced environment.

SKILLS

Frontend

React, Next.js, TypeScript, Tailwind CSS, Framer Motion, Radix UI, HTML5/CSS3

UI/UX & Design

Figma, UI Prototyping, Responsive & Accessible Design, Glassmorphic Systems

Backend & APIs

Node.js, Python, PostgreSQL, MongoDB, Prisma ORM, Drizzle ORM, REST APIs

AI & Tooling

Gemini API, Groq AI SDK, LangChain, LangGraph, n8n, CrewAI

Auth & Security

SSO/Authentication, NextAuth.js, Auth0 (GitHub & Google OAuth), JWT

Environment

Linux/Unix, Git/GitHub, Netlify Functions, Vercel, Neon (Serverless Postgres)

Cloud & DevOps

GCP (IAM, Compute Engine, GKE), Docker, Kubernetes, CI/CD, Serverless Architecture

PROJECTS

DataCanvas - Powered Data to Dashboards

—Ongoing

A work-in-progress data visualization platform that detects common data types and suggests charts to help users turn CSV/JSON data into quick, interactive dashboards. ([Venture In](#))

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Recharts, Chart.js, PostgreSQL (Neon), Prisma, NextAuth.js, Github AuthO, Google AuthO, Netlify

Chronos - Automate. Personalize. Scale.

—February 2026

A modern startup workspace that unifies project management, Kanban boards, real-time messaging, collaborative docs, AI assistant, and outreach automation into a single platform. Key features include auth-secured workspaces, drag-and-drop task boards, rich-text documentation, real-time chat, AI-powered insights with Groq, visual outreach workflow builder, analytics dashboard, multilingual UI, and production-ready Vercel deployment. ([Venture In](#))

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, MongoDB Atlas, NextAuth.js, Groq AI SDK

SwiftCards - Knowledge on Autopilot

—Aug 2025

A full-stack, AI-powered platform that automatically turns uploaded PDFs, images, videos, and text into interactive flashcards using Gemini. Features include advanced file processing (OCR, speech-to-text), spaced repetition, analytics, gamification, collaboration, and a modern, accessible UI. ([Venture In](#))

Tech Stack: Next.js 15, React 19, TypeScript, Tailwind CSS, Supabase, Gemini, Netlify

EduInsight - Gateway to Free Engineering Courses

—June 2025

A full-stack web platform to collect and categorize free engineering courses from various platforms. Features integrated search, filtering, and a futuristic responsive UI. ([Venture In](#))

Tech Stack: Next.js, TypeScript, Tailwind CSS, Framer Motion, Web Scraping, Netlify

Quantum Habits - Daily Habit Checklist

April 2025

A terminal-themed habit tracking application with a cyberpunk aesthetic. Built using modern web animation libraries and a futuristic terminal UI. ([Venture In](#))

Tech Stack: Next.js, TypeScript, Framer Motion, Tailwind CSS, Netlify

WORK EXPERIENCE

Cloud Engineering Intern

Jan 2026 - Feb 2026

Enhub AI

Bangalore, Karnataka, India

- Worked hands-on with GCP services including IAM, Compute Engine, and GKE within a containerized (Docker/Kubernetes) cloud infrastructure context.
- Collaborated with senior cloud engineers to configure and manage serverless deployments and cloud-native application workflows.

Cloud Engineer Apprenticeship

Jun 2024

CitiusCloud Services LLP

Mumbai, Maharashtra, India (Remote)

- Gained foundational exposure to cloud architecture patterns, resource provisioning, and infrastructure management in a professional cloud services environment.

FREELANCE WORK

Freelance Web Developer

April 2025 – June 2025

- Developed responsive portfolio websites for 2 clients, creating reusable design system and modular components
- Built scalable template architecture enabling rapid customization for different personal brands
- Implemented responsive UI/UX with glassmorphic design, smooth animations, and serverless contact forms
- Deployed multiple sites with optimized performance and continuous deployment pipeline

Tech Stack: Next.js 15, React 19, TypeScript, Tailwind CSS, Framer Motion, Radix UI, Netlify Functions

EDUCATION

Bachelor of Engineering - Artificial Intelligence & Data Science

Expected 2027

Vidyavardhini's College of Engineering and Technology, Mumbai

Current CGPA: 8.17/10

Relevant Coursework: Full-Stack Development, Data Structures, Software Engineering, Database Systems

Higher Secondary Certificate - Science Stream

2023

Thomas Baptista Junior College, Vasai

MHT CET: 92.55 Percentile — JEE Mains: 89.71 Percentile

CERTIFICATES

- [McKinsey.org Forward Program](#) Dec 2025
- [TechBlitz 2025 – LLM Integrated App Development](#) Mar 2025
- [Organizer – TechBlitz 2025, Technical Team \(VCET\)](#) Mar 2025
- [Oscillation Runner-Up – IEEE](#) Apr 2025
- [Cloud Computing – IIT Techfest 2025](#) Dec 2024
- [Data Visualisation Job Simulation – Tata Group \(Forage\)](#) Jul 2024
- [Generative AI Internship – VCET](#) Jun 2024

EXTRACURRICULAR ACTIVITIES

Co-Chairperson, NSDC (National Student Data Corps)

July 2025 – Present

Vidyavardhini's College of Engineering and Technology, Mumbai

Technical Lead & Event Coordinator, NSDC & PAT Cell

July 2024 – Present

Vidyavardhini's College of Engineering and Technology, Mumbai
